

MC8700 PCI EXPRESS MINI CARD STANDARDS-BASED EMBEDDED MODULE FOR 21 Mbps HSPA+ NETWORKS

■ Sierra Wireless Empowered™ Solutions

The MC8700 PCI Express Mini Card is a powerful, cost effective tool that easily integrates into a variety of OEM devices; from laptops or fixed wireless terminals to industrial PDA's. Embedded right into the OEM device for the best possible performance, users will be 'Sierra Wireless Empowered™', experiencing the high- performance wireless wide area connectivity of Sierra Wireless' award-winning products. The MC8700 allows you the flexibility to send and receive information when you need to by turning your hardware devices into powerful data communications tools.

■ PCI Express Mini Card Standard

Based on the PCI Express Mini Card specification, the MC8700 offers premium functionality and performance. Extensive software, applications and tools, installation and activation wizards, and essential hardware drivers simplify the certification and commercialization process. Measuring 51 x 30 x 4.5 mm and weighing in less than 12g the MC8700 complies with new European Union directives on RoHS (Restrictions on Hazardous Substances).

■ Powerful HSPA Engines

The MC8700 PCI Express Mini Card allows you to roam on high-speed networks around the world while providing wide area wireless data access at speeds up to 21 Mbps downlink and up to 5.76 Mbps uplink.

- Peak downlink speeds up to 21 Mbps
- Peak uplink speeds up to 5.76 Mbps*
- Supports third generation (3G) digital cellular standards
- Enables rapid development of exceptional high-speed data products*
- Supports quadband EDGE/GPRS/GSM: 850/900/1800/1900 MHz

* Subject to network conditions, see service provider for details

■ Superior Support To Help With Integration Requirements

At Sierra Wireless we take pride in working with our customers to develop and bring high quality GSM data solutions to market on a timely basis. Backed by our leading development and support team, you can depend on Sierra Wireless to provide comprehensive software interface, development and integration services and a full suite of complementary software drivers to accelerate product development cycles. Sierra Wireless is a reliable extension of your development team; we can help efficiently design, develop, certify, and launch exceptional wireless data products. Sierra Wireless is your only source for Sierra Wireless Empowered™ wireless data solutions.

■ UP TO 21 Mbps DOWNLOAD AND 5.76 Mbps UPLOAD FOR HSPA+ NETWORKS

■ BEST IN CLASS TECHNICAL AND INTEGRATION SUPPORT AND PROFESSIONAL SERVICES ACCELERATE END PRODUCT TIME-TO-MARKET

■ COMPREHENSIVE SOFTWARE OFFERING, DEVELOPMENT KIT AND APPLICATIONS SIMPLIFIES DEVELOPMENT PROCESS
